Inclusion Statistics

Explanatory Note: The tables listed in this section provide statistics on applications for inclusion under Agricultural Land Commission Act by a Municipality, a Regional District, or the Commission to have additional lands designated as an Agricultural Land Reserve, whether or not they own those lands. The Municipality, Regional District, or Commission, as the case may be, must hold a public hearing in respect to the application. Where an individual owner has applied to the Commission, via the Regional District or Municipality, to have his land included in an Agricultural Land Reserve, no hearing is required.

Also note that amendments to the Act in 1993, relieved Cabinet of any further decision making on these types of applications. The final decision is made by the Commission for these types of applications.

Exclusion Statistics
(Local Government or Commission)

Explanatory Note: The tables listed in this section provide statistics on applications for direct government to government applications for exclusion from the Agricultural Land Reserve. The Commission, a Regional District, or a Municipality may make application for exclusion of private or Crown lands from an Agricultural Land Reserve. Prior to the submission of an application, the Municipality, Regional District, or the Commission, as the case may be, must hold a public hearing on the application. A report of the hearing must accompany the application.

Also note that amendments to the Act in 1993, relieved Cabinet of any further decision making on these types of applications. The final decision is made by the Commission for these types of applications.

Part D

Subdivision or Land Use Statistics

(Application by Local Government)

Explanatory Note: This section provides statistics on applications for direct government to government applications for exemption for use and/or subdivision within the Agricultural Land Reserve. The Land Commission, a Regional District, or a Municipality may make application for subdivision and/or non-farm use of private or Crown lands within an Agricultural Land Reserve. Prior to the submission of an application, the Municipality, Regional District, or the Commission, as the case may be, must hold a public hearing on the application. A report of the hearing must accompany the application.

Also note that amendments to the Act in 1993, relieved Cabinet of any further decision making on these types of applications. The final decision for these applications is now made by the Commission. Since no new applications have been received since 1990 only Tables D-1 and D-6 are listed.

Exclusion Statistics
(Private Land Owners)

Explanatory Note: The tables listed in this section provide statistics on applications for exclusion from a private individual land owner. An individual land owner may apply to the Commission for exclusion of his property from an Agricultural Land Reserve. Preliminary processing of these applications is done by the appropriate Regional District or Municipality, followed by further processing and a hearing by the Commission. The final decision on these applications is made by the Commission.

***NOTE:**

1. The column marked 'OTHER' would include decisions in which ELUC recommended subdivision and/or use within the ALR.
2. Decisions and areas reported as 'allow' or 'refuse' do not imply that land was excluded from the ALR but rather the "APPEAL was allowed or denied. This distinction is important in the relatively few cases where for example the Commission may have allowed an exclusion application which was appealed by someone other than the owner. ELUC may have allowed the appeal thus overturning the Commission decision to exclude the land.
3. Amendments to the Act in 1993 rescinded provisions for appeal under section 13(1). In view of these amendments, there are no new figures available following 1993.
4. All figures relating to area are in hectares.

5. All figures relating to area are in hectares.

Part H

Subdivision or Land Use Statistics (Private Land Owner)

Explanatory Note: The tables listed in this section provide statistics on applications for exemption for use or subdivision within an Agricultural Land Reserve. Under this section an individual may apply to the Commission for permission to subdivide land or to use a parcel of land within an Agricultural Land Reserve for purposes other than those allowed outright by the Act or Regulations. Processing is completed in the same manner as applications for exclusion by private land owners except a hearing is not required. The land remains in the Agricultural Land Reserve and the Commission may impose whatever terms and conditions it considers applicable. The decision of the Commission is final. There is no appeal, except to the courts on a question of law or excess of jurisdiction.

Part I
Miscellaneous Statistics

Explanatory Note: The tables listed in this section provide statistics on applications pursuant to the Subdivision and Land Use Regulations. Under these Regulations, certain kinds of subdivision and land use may be allowed by the local government without reference to the Commission. In addition, other categories of subdivision (Subdivision along the ALR boundary) and certain conditional uses (Special Case Uses of the Regulations) may be applied for directly to the Commission. When an application for subdivision along the ALR boundary or Special Case use is received by the Commission, it consults with the Regional District or Municipality so that they might present their views prior to the decision being made by the Commission.

It is possible for the Agricultural Land Commission to deal directly, by a specific order or resolution, with certain other situations requiring land-use or subdivision approval without the necessity for a formal application. Very infrequent use is made of this power as it pertains only to unusual circumstances involving extreme emergency or hardship in those cases where the necessity for formal application is questionable. In all cases the Commission attempts to contact the local government to determine its position on the matter.

Please note that the tables listed in this part only provide the number of applications received. Unfortunately, information on the decision and other aspects of the application are unavailable at this time.
